EQUIPPING STUDENTS TO RESPOND TO ABORTION

PRESENTATIONS

Pro-Life Strategy

This foundational talk will introduce students to the different arms of the pro-life movement, highlighting the need for educational outreach. The stories of successful social reform movements throughout history will inspire students to take effective and compassionate action today to transform our culture by sharing the truth about abortion in love.

Pro-Life Apologetics

Learn how to change minds on abortion using CCBP's world-class, street-tested apologetics. Students will be equipped to have compassionate and compelling conversations about abortion that speak to both the head and the heart. This talk is essential for every pro-lifer who wants to be able to respond to pro-abortion objections and minister to anyone who has been touched by abortion.

Our speakers can also present on a wide variety of topics beyond these two, including euthanasia, pornography, and responding to our current culture. Please reach out if you have a specific topic request.
